

Defense Logistics Agency

DLA Aviation—Mapping Customer Operations

Mapping Customer Operations (MCO) is responsible for the supply management of approximately 90,000 National Stock Numbers in four federal supply classes—7641 (Aeronautical), 7642 (Hydrographic), 7643 (Topographic), and 7644 (Digital CD/DVD). MCO also manages special programs including Fleet Allowance, Flight Information Publications, and War Reserve.

While this is “nice to know” information, MCO understands that most of you just want to order and receive mapping products with the least amount of hassle. We have no control over some of the hurdles you face, such as AMPS, but know that MCO is always available to help you through the process. The contact list on the last page of this newsletter is probably more important than anything else in this publication. Never hesitate to give MCO a call or send an email. You will not reach a call center. Instead, you will talk to an item manager or account manager who will help you until your issue is resolved. We pride ourselves on customer service and support to the war fighter. We value your feedback, so please let us know how we are doing or how we can improve. In addition, let us know what types of articles you would like to see in future newsletters.

BREAKING NEWS

NGA PHASED REDUCTION OF GLOBAL CHART PORTFOLIO

Effective 01 August 2016, NGA began a phased reduction of standard nautical hardcopy chart coverage over all regions of the world. As military and commercial ships fully transition to electronic navigation using approved Electronic Chart Display and Information System (ECDIS) platforms and associated electronic/digital charts, the requirements for hardcopy charts as a primary means of navigation are being reduced. With this transformation in navigation practices, NGA identified and proposed specific harbor and associated approach scale hardcopy chart reductions around the world based upon historical activity and usage by customers. These proposed chart cancellations were coordinated with, reviewed, and approved by U.S. national hydrographic authorities and NGA mission partners with official concurrence for termination from the Services and Combatant Commands formalized through a Joint Staff Action Processing (JSAP) tasking.

With these cancellations, NGA will no longer produce and maintain these hardcopy charts, DLA will no longer list these products in the DLA Catalog or provide copies in response to requisitions, and commercial printing contract partners will no longer be provided print files or be authorized to print these charts for customers. No chart coverage cancellations will be made in U.S. territorial waters or in areas of the world where the U.S. is considered the prime charting authority. All cancellations made to the NGA portfolio as part of the first phase of this effort can be identified through the authority line of “NTM0015/2016” associated with each chart cancellation correction in Section I.

Any questions or requests for further information with regards to this phased reduction of NGA hardcopy chart coverage can be submitted directly to the Maritime Customer Quality Feedback Database at MCDNtM@nga.mil.

**DLA MAPPING INVITES YOU TO ATTEND OUR OPEN HOUSE
FORT BRAGG, NORTH CAROLINA
28 SEPTEMBER 2016, 1000-1400**

Defense Logistics Agency invites you to join us for an open house and tour of the new forward positioned map facility located at the US Army Forces Command Intelligence Readiness and Operations Center (FIROC), Fort Bragg, North Carolina. The FIROC is a full service facility offering pre-positioned hardcopy and digital retail in support of training, planning, and deployments as well as unique aviation products in support of these missions. Counter service will be available to customers in the Ft. Bragg and surrounding area for all products, including those that can be printed on demand at the FIROC as needed and specialized items.

During the open house, you will have an opportunity to meet team members who work in the FIROC and who will provide a single point of access for your mapping logistical support. In addition to ordering assistance and fulfillment, they will be your source of training for establishing and maintaining customer accounts, learning how to use the DLA Map Catalog for ordering products, becoming familiar with DoD EMALL and WEBREQ, understanding how to establish requirements, and many other topics tailored to your specific needs.

We look forward to seeing you on 28 September and are anxious to hear your feedback about this new facility. Light refreshments will be served.

Map and directions will be available on our website:

www.aviation.dla.mil/rmf

New Map / Chart Accounts

To obtain mapping products from MCO, customers must first register in the Account Management & Provisioning System (AMPS) at <https://amps.dla.mil/> and request a role within the Mapping Enterprise Business System (MEBS). Go to <https://amps.dla.mil/> to register and click on the link to request a role. You will receive email confirmation once approved. To access your account, log in to AMPS and select your MEBS role.

A couple of registration hints—you will be asked to identify your supervisor, and security officer. These individuals will receive AMPS-generated emails throughout the registration process and must be answered for the account to be approved. You will also need to know your last Information Assurance training date. One last item you will need is your DODAAC, which will be your map/chart account number. Please keep all AMPS/MEBS related emails, especially the one containing your SAAR number. Changing account custodians on an existing account is done in much the same way as opening a new account. New custodians must also register in AMPS using the map account DODAAC. As always, if you have any questions give us a call (800 826-0342).

If you have any questions regarding establishing your map/chart account call MCO Account Management for help at DSN 695-6500, commercial 804-279-6500, or 800-826-0342 (toll free), and select Option 2. You may also contact us via email at acctmgr@dlamc.dla.mil.

DLA Map Catalog

The DLA Map Catalog allows customers to order Aero, Hydro, Topo, and Digital (CD/DVD) products needed for their particular missions. Customers who order geospatial products through DLA must have the following:

- A valid DODAAC.
- Current map/chart account with MCO.
- DLA Map Catalog CD or online version.
- A WEBREQ or DOD EMALL account.

There are two CD versions of the Map Catalog available, as described below:

CD Versions-

1. The 'Limited Distribution' gray CD is reserved for military and government agencies which possess access to limited distribution data. The disk is Navy/Marine Corps Intranet (NMCI) compatible. A new version is released every six months. This version is also downloadable via DoD EMALL.
2. The classified red CD is reserved for military and government entities that have access to classified data. A new version is released every six months.

DLA Map Catalog CD-ROM Data Files are now available in DoD EMALL. Users can now use DoD EMALL to download the data files used to update/maintain the CD-ROM DLA Map Catalog. Simply log into DoD EMALL and click on the "DLA Map Catalog" link at the bottom of the main page to access the current edition of the CD-ROM DLA Map Catalog application in zip file format and the five (5) product data zip files: Aero, Hydro, Digital, Topo and USGS. Follow the download instructions associated with the file(s) you need to download. The data zip files will be updated weekly. The DLA Map Catalog program file will be updated every six (6) months or as needed. If you have any questions or problems, please contact the DLA Map Catalog Team at COMM: (269) 961-4757; DSN: 661-4757 or E-Mail: DLAMCUC@dlamc.dla.mil. Subscription Service is now available for DLA Map Catalog Data Files. Users can now subscribe to receive the DLA Map Catalog data files via E-mail. These data files are required to maintain and update the DLA Map Catalog CD-ROM between releases. To receive these files weekly or monthly, submit an E-mail to the DLA Map Catalog Team at: DLAMCUC@dlamc.dla.mil with a list of the data file (s) requested (Digital, Aero, Hydro, Topo, USGS) and how often you would like to be notified (weekly, monthly).

DLA MAP CATALOG

How to Order Maps?

There are a few ways that you place orders for your mapping products. The two most common ways are to submit them electronically using [WEBREQ](#) or [DOD EMALL](#). Orders are submitted in MILSTRIP format and are routed to MCO. WEBREQ is DLA's legacy system for ordering mapping products. Orders can be entered manually, but most customers use the DLA Map Catalog to build the order and then upload the text file into WEBREQ. DOD EMALL, the newer of the two systems has the ability to upload up to 10,000 items at a time and the DLA Map Catalog is available for download as mentioned above. Order tracking is available regardless of which system you use, as long as you have your document number available. *Army units in the CENTCOM AOR must use SARSS, IAW Army policy.

Crisis Ordering:

MCO can assist with any emergency requests due to crisis situations, short-notice deployments or any other unexpected development. When requesting expedited map/chart shipments in support of emergency or contingency operations, contact us initially by telephone at (804) 279-6500/DSN 695-6500 or 1-800-826-0342.
